CAREER HISTORY

Charles brings to Group DLA 23 years of building surveying experience. He has a sound knowledge in the BCA, building surveying and development certification that include all sectors of non-residential construction.

Charles has a post graduate Masters in Building Surveying, as well as a Master's in Business Administration from MGSM to ensure that his practical knowledge is supplemented by his undergraduate and post graduate educational achievements.

Charles is responsible for design development BCA assessment, the assessment of construction certificates, complying development certificates and occupation certificates on development in all non-residential construction fields.

Charles has been involved with over 1,500 projects over the course of his career, and this has involved the assessment of approximately 500 or more projects which have included performance solutions.

He has a thorough and detailed knowledge of the Building Code of Australia and National Construction Code, all supplemented by experience with all relevant Building and Development Acts and Regulations associated with his role.

As a Board member and Treasurer of the Association of Australian Certifiers (AAC), it enables Charles to have access to the latest information and policy changes to ensure that his advice and expertise is at the forefront of any legislative and technical changes, and he is a regular presenter on webinars and seminars on all manner of topics on behalf of the AAC.
